

MIRANDA DANIELA HERNÁNDEZ MENDIOLA

Calle Ulises 243, Col. Paseo de San Nicolás, San Nicolás, Nuevo León | 812 910 7813 | hmiridany5@gmail.com

Profile

Software Engineering Technology student at the Universidad Autónoma de Nuevo León, with knowledge of data analysis, data cleaning and structuring, and report generation to support decision-making. Experienced with Microsoft Excel, Python for data analysis, and Power BI. Skilled in identifying patterns and trends in data, as well as maintaining the organization, quality, and consistency of operational data. Currently enrolled as an active student, with flexible availability and the ability to adapt easily to collaborative work environments..

Education

Faculty of Mechanical and Electrical Engineering – UANL
B.S. in Software Engineering Technology

2022 – Present

Academic Projects & Experience

GESTAC – PIV 2025–2026 Institutional and Industry Collaboration Project Symposium

November 2025

- Participated in the development and presentation of GESTAC, an asset management system for CECOM.
- Provided database support and maintenance throughout all testing phases.
- Reduced the time required to search for, assign, and report equipment by implementing at-a-glance dashboards with KPIs and live charts.
- Presented the project to an audience through a presentation that lasted under 10 minutes.

SPIA – Institutional Food Delivery Health & Safety Project

May 2026

- Identified a case reported in the news, uncovering patterns and establishing a starting point for data analysis.
- Implemented a preventive alert system to detect food safety risks by monitoring inconsistencies and risk factors.
- Through scenario simulation, estimated a 24% overall probability of reaching a critical state, supporting data-driven decision-making.
- The model can be applied to any process involving sequential states and a critical absorbing state.

Skills

Technical Skills:

Database Design, Support & Maintenance (SQL, MySQL & PHP) • Data & Automation (Python, Pandas, NumPy, Jupyter Notebook, Excel & Power BI) • IT & Development (Git & GitHub) • Web Development (HTML, CSS, JavaScript & VueJs) • Cloud Computing (AWS Cloud Technology Basics) • Microsoft Office, SharePoint & Teams

Soft Skill:

Teamwork • Time Management • Attention to Detail • Project Presentation • Willingness to Learn

Languages

Spanish: Native

English: Intermediate – Advanced (B1)

Certifications

- Data Visualization in Power Bi | DataCamp | August 2026
- AWS Cloud Technology | DataCamp | August 2026
- Database Design | DataCamp | August 2026
- Git & GitHub | Udemy DevTalles | 2025
- Curso CCNav1.1 200-301 | Red Mastered | February 2025
- Excel | Udemy – Global Mentoring | 2024
